Dev10 Associate

B.A. in Operations & Supply
Chain Management

<Hooked /> Overview

<Hooked /> is a study buddy website that promotes a strong and collaborative community among coders of all skill types!

Users can match with and message other users who share the same **language preference, proficiency level, and availability.**

Learning Goals

TalkJs - A developer friendly third-party chat API.

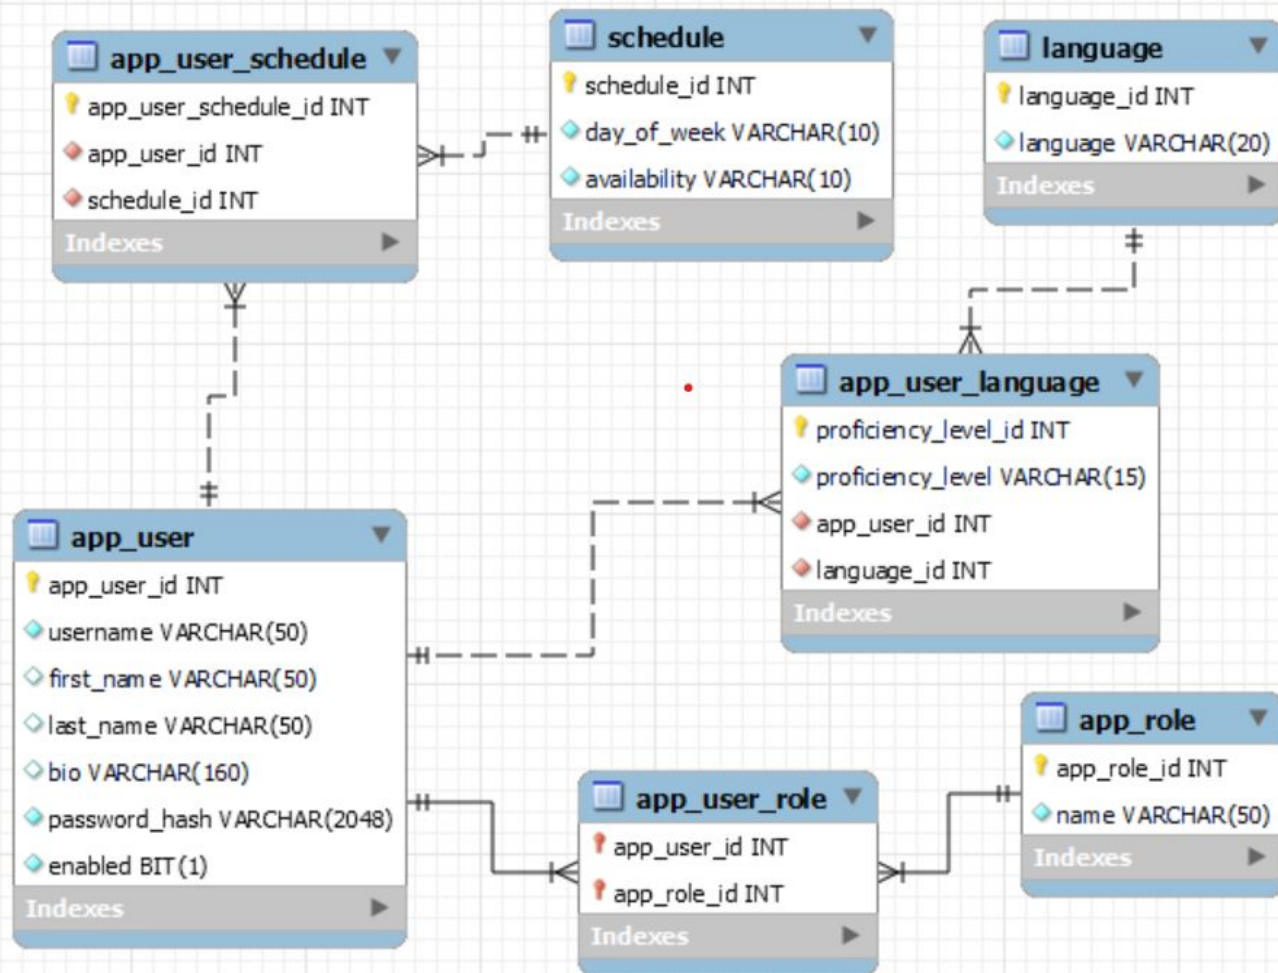

React Select - A flexible input control that helps develop powerful select components.

Technologies Used

Front-End	Back-End	Security	Environment
UI: HTML, CSS, Node.js, JavaScript, React API: TalkJs	Java , MySQL, Maven, JdbcTemplate Frameworks: Spring Boot Testing: JUnit, Mockito	Spring Boot Security, Json Web Token Deployment: Docker	Environment Management: Docker Version Control: GitHub
